Y2 My Day

In this activity we sequence the events in our day from when we wake up until when we go to bed. We peg these to a string to make a timeline.

1. Begin by asking your child to tell you about the first thing they do when they wake up.

   The first thing I do is look out the window.
   What do you do?

2. Get them to draw the first thing that they do on a small square of paper and peg it to one end of a piece of string (pictures could just be laid out on a table and taped together if string is not available).

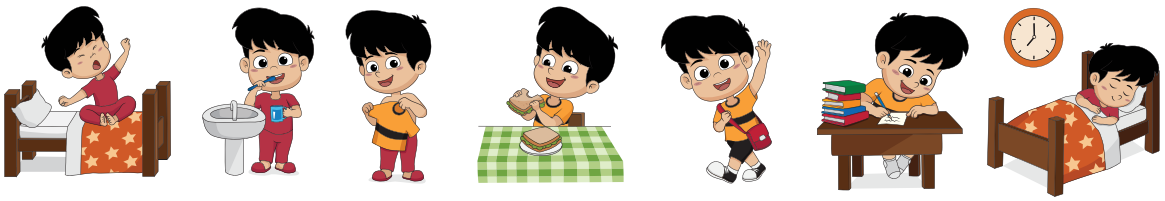
3. Ask the students to think about the last thing that they do each day.

   At the very end of the day I go to bed and go to sleep.

4. Draw this on another square of paper and peg it at the other end of the string.

5. Explain that we call this string a timeline and it shows the order that things happen on a normal day.

6. Now ask them to think about other things that they do during the day.

7. Draw more pictures and add them to the timeline.


8. Talk about the order of the things on the timeline and move them if necessary.
