

Go on a Scavenger hunt!

1. Use a ruler to find out how long 1cm is. Take a good look!
2. Find ten objects that you estimate to be 1cm long.
3. Record your objects on the table below.
4. Check your estimations.

Object with estimated length 1 cm	Measured length

How accurate were your estimates?

Were your estimates too long or too short?

What would be a good way to try and remember how long 1cm is?
