

Kapa Haka Hāngi

ACTIVITY

The kapa haka group has decided to prepare a hāngi to raise money for their cultural festival.

Potatoes	12 kilograms
Pumpkin	3 large
Cabbage	6 large
Kūmara	8 kilograms
Lamb	9 kilograms
Pork	5 kilograms
Chicken	7 kilograms

The chart shows the quantities of food needed for 30 adults.

- How much will they need to feed 50 adults?
 - How much will they need to feed 70 adults?
- Find out current prices of the hāngi ingredients so that you can work out the cost of preparing a hāngi for 50 adults.
 - Using these prices, work out how much the kapa haka group will have to charge people for their hāngi food so that the group makes a 25 percent profit.
