

Triangles: Area worksheet

Find the area of these triangles from the measurements provided.

If you can not work out the area from the measurements given, draw a line to indicate the measurement you would need to make to be able to work out the area.

Do not actually make any measurements.

Area = _____
= _____

Area = _____

Area = _____
= _____

Triangles: Area worksheet

Sketch the triangles described below. Side lengths should be labelled but do not need to be to scale.

Sketch and label a right angled triangle that has an area of 12 units^2 .

Sketch a triangle with a base length of 12 units and an area of 60 units.

Sketch and label a non right angled triangle that has an area of 24 units^2 .

Sketch a triangle with an area of 12.5 units^2 .
