

More Thinking

Activity

1. Four dresses can be made with 6 metres of cloth.

How many dresses can be made with 36 metres of cloth?

2. The goat eats five bales of hay in 3 days.

How many days will it take the goat to eat 100 bales of hay?

3. To make her favourite green paint, Sonya mixes two tubes of blue paint with four tubes of yellow and three tubes of white paint.

She squeezes 12 tubes of white paint into the pot.

How many tubes of the other colours does she need?

4. At the Bathurst 500, Wiperblade Wendy's car covered 14 kilometres in 4 minutes.

At the same speed, how far would her car go in an hour?
