Activity

For each problem, write a statement and then find the answer.

1. Matafa's dog costs \$7 per week to feed.
How much does it cost to feed for a whole year?

2. Each bus can take 46 passengers.
All 414 tangata whenua from Tākitimu Marae are going to the hui.
How many buses will they need?

3. Teresa buys 12 boxes of soft drink for the school social.
She works out that there are 432 cans altogether.
How many cans are in each box?

4. There are eight players in the Hotshots netball squad. It cost \$624 for their uniforms.
How much did each player's uniform cost?

5. At the movie theatre, Yasuko and her six friends shared a box of lollies.
Each person got 18 lollies.
How many lollies were in the box?
