## Where am I?

| Key |  |
| :---: | :---: |
| $\sim$ | road |
| $\square$ | building |
| - - - | walking track |
| * . . | fence |
|  | paved area |
| D | gate |
| $\bigcirc$ | water tank |
| A | rock |
| $\sim$ | stream |
| H | bridge |
| (0) | historic tree stump |
| $\square$ | bush area |
| \% | seat |
| 1 | monument |
| $\bigcirc$ | hill |

From where Sam is standing, he can see the bush and track ahead of him in the distance, a tree stump on his right, and in the distance to the west, a small bridge over the stream.

1. Where is Sam standing? If he makes a half turn, what will he see?
2. Pretend you and two of your friends are in different places on this map.
Write what each of you can see to the north, to the east, to the south and to the west.
Have a classmate use your clues to work out where the three of you are.
