

Where's bunny now?

Henry and Wiremu play a game of Bunny Hop.

Henry's counter is red and Wiremu's is green.

Henry says that the game isn't fair.

1. Do you agree with Henry? Explain why.
2. Change one rule in the game, play it with a friend and decide if your game is fair.

Bunny Hop

1. Each player needs a counter and a coin.
2. Place the counters on zero.
3. Take turns tossing a coin.
If it shows tails, move your counter one space to the right.
If it shows heads, move your counter one space to the left.
4. The winner is the player who is on the highest number after 10 tosses each.
