

Make 5

Purpose:

To help your child to learn the addition number facts to 5.

Link to the Number Framework:

Number Facts, Stage 0-3

What you need:

- A pack of cards. Use only the ace, 2, 3 and 4 for each suit, 16 cards in total.

What to do:

- Deal out 6 cards in a row, face up.
- Players take turns to pick up 2 or more cards that add to 5. For example $1+4$, $2+1+1+1$ or $3+2$.
- At the end of each player's turn, the cards they have removed are replaced from the deck.
- The game finishes when no further combinations can be found. The winner is the player with the greatest number of cards.

What to expect your child to do:

Be able to instantly recognise combinations of numbers that add to 5.
