

## Multiples Cover Up

### Purpose:

The purpose of this activity is to help your child to identify multiples of numbers.

### Link to the Number Framework:

Number Facts, Stage 7

### What you need:

Multiple cards and game boards. You can print these or make your own.  
8 buttons/counters/little squares of paper for each player.

### What to do:

Cut out the multiple cards and place in a pile face down. Give a game board to each player. The first player turns over a multiples card. If the number is a multiple of a number on their card they can cover that number. They can only cover one number in a turn. Return the multiples card to the bottom of the pile. If they are unable to cover a number on their board then other player has a turn. The winner is the first person to cover all the numbers on their game board.

### What to expect your child to do:

To identify multiples of numbers using strategies such as multiplication and division facts, and divisibility rules. For example; any number ending in a 5 or a 0 is a multiple of 5, any even number is a multiple of 2, any number whose digits add to a multiple of 3 is also a multiple of 3 e.g. 54:  $5 + 4 = 9$ , 9 is a multiple of 3 and therefore so is 54.

### Variation:

Make your own multiples cards.

The first person who calls a factor of a multiples cards can cover that factor on their board. For example, if the multiple 35 is turned over then the first person to call either 5 or 7 can cover either of these numbers on their game board.

### He Kupu Māori:

papa tau	number board
taurea	multiple
porotiti	add

### He Whakawhitinga Kōrero:

- Whakaputua ngā kāri ko ngā mata ki raro. (*Place the cards in a pile, face down.*)
- Tangohia tētahi kāri. Āta tirohia tō papa tau. Mēnā he taurea tō kāri o tētahi o ngā tau i tō papa, uhia taua tau ki te porotiti. (*Look carefully at your number board. If your card is a multiple of a number on your board, cover that number with a counter.*)
- Whakahokia tō kāri ki raro o te putunga kāri. (*Return your card to the bottom of the pile.*)
- Kei ahau ināianei. (*Its my turn now.*)
- Māu e tīmata. (*You can start.*)
- He taurea te tekau mā whā o te whitu. (*14 is a multiple of 7.*)
- Ko te tangata tuatahi ki te uhi i ngā tau katoa i tōna papa, ko ia te toa. (*The first person to cover all of the numbers on their board is the winner.*)
