

Dividing fractions: Fraction patterns

Equation	Quotient	Look at the numbers. What do you notice?
$3 \div 1/2 = \square$		
$5 \div 1/3 = \square$		
$5 \div 1/2 = \square$		
$2 \div 1/4 = \square$		
$2 \div 1/3 = \square$		
$5 \div 1/4 = \square$		

Complete the quotient column and write anything you notice about the numbers.
Is there a pattern?
