

Job Sharing

You need toy money a calculator a classmate

Activity

1. The Murdoch Street kids do odd jobs for money. How much money would each person get for the following jobs:

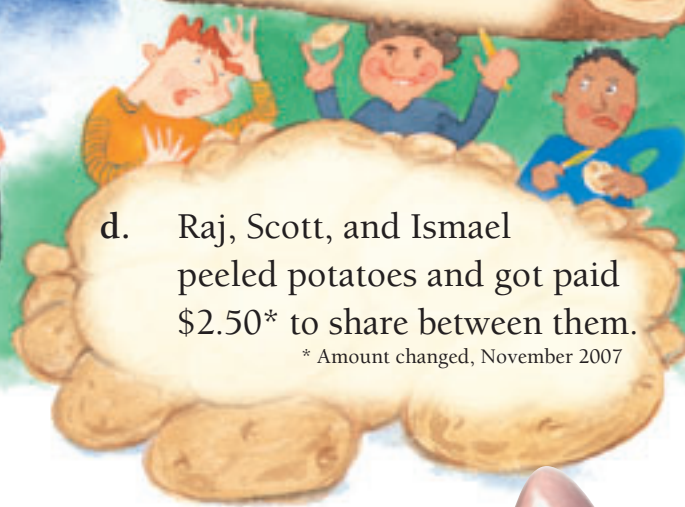

- a. Rob and Sue washed the car and got paid \$1 to share equally.

- c. Keni, Fatu, Lucy, Harry, and Ellen painted the fence and got \$3 to share equally.

- b. Tania, Ripeka, Sid, and Wai stacked firewood and got paid \$4 to share between them.

- d. Raj, Scott, and Ismael peeled potatoes and got paid \$2.50* to share between them.

* Amount changed, November 2007

2. Was any group unable to share their money evenly?
 3. Discuss with a classmate what the group could do.
 4. For each group, draw the money each person got.
