

Medieval Measure

You need ☒ place value blocks

Activity

Arthur is drawing up plans for a new castle he wants to build. Here is a picture of the front of Arthur's new castle.

1. Use place value blocks to work out how many bricks Arthur will need for the front of his new castle.
2. How did you work this area out?
3. Is there any other way of working out the area of the front of Arthur's castle?
