

# Monster Measure

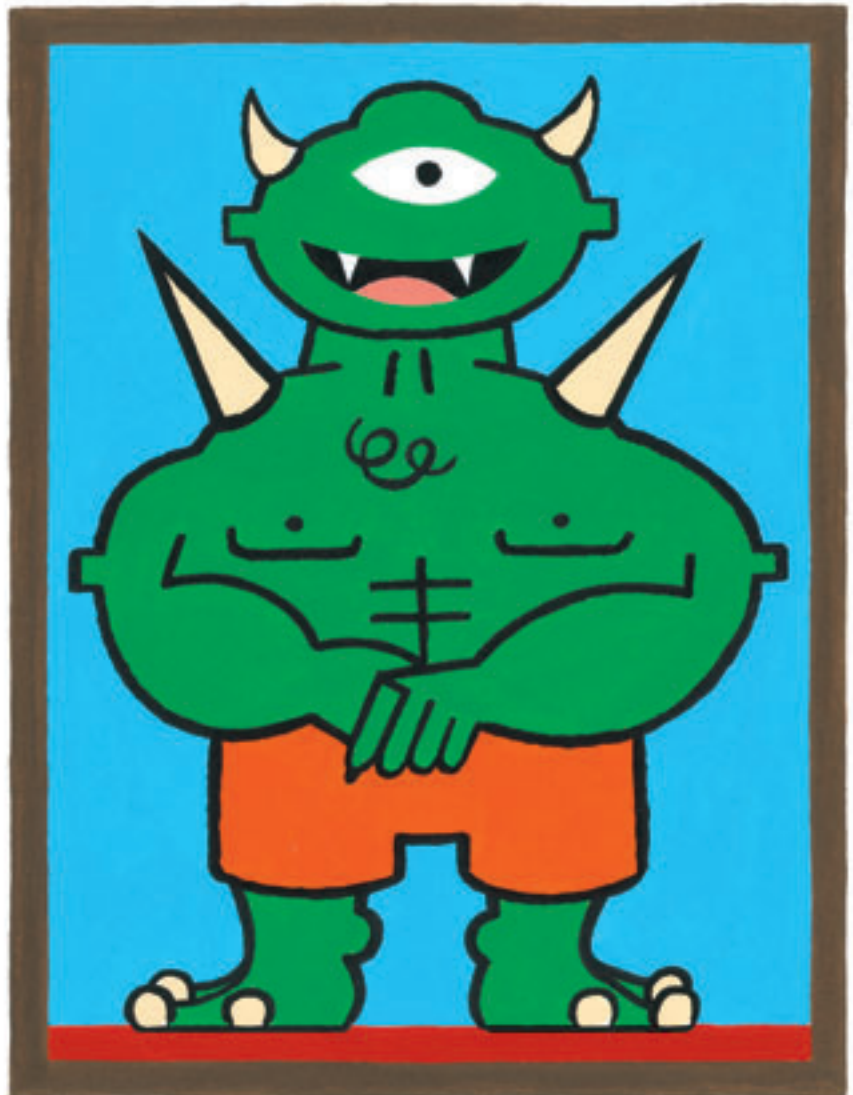

You need  a ruler

a classmate

## Activity

Count McCabe designed a new monster.

He drew a scale diagram of the monster, using the scale 1 centimetre : 1 metre.

1. Use your ruler to measure Count McCabe's scale drawing and answer the following questions:
  - a. How tall is Count McCabe's monster?
  - b. How wide is the monster from elbow to elbow?
  - c. How wide is the monster's mouth?
  - d. How long are the monster's spikes?
  - e. How long is the monster's longest finger?
2. Using a scale, draw your own monster. Write down your scale and some measurement questions for a classmate to answer.
