

Kei te tika, kei te hē rānei ēnei whārite hautau ōrite? Whakamāramatia he aha i tika ai, he aha rānei i hē ai:

Whārite	Whakamārama
$\frac{3}{4} = \frac{33}{43}$	
$\frac{120}{360} = \frac{1}{3}$	
$\frac{6}{11} = \frac{60}{110}$	
$\frac{6}{8} = \frac{9}{12}$	
$\frac{4}{6} = \frac{10}{12}$	
$\frac{2,000}{6,000} = \frac{3}{9}$	
$\frac{16}{64} = \frac{4}{15}$	
$\frac{6}{25} = \frac{46}{200}$	

Ko tēhea te hautau nui ake o ngā hautau takirua? Whakamāramatia he aha ai:

Ngā Hautau	Te whakamārama
$\frac{5}{7}, \frac{3}{4}$	$\frac{5}{7} = \frac{5 \times 4}{7 \times 4} = \frac{20}{28}, \frac{3}{4} = \frac{3 \times 7}{4 \times 7} = \frac{21}{28}$ . Nō reira, $\frac{5}{7} < \frac{3}{4}$ .
$\frac{5}{7}, \frac{2}{3}$	
$\frac{5}{8}, \frac{2}{3}$	
$\frac{2}{5}, \frac{7}{16}$	
$\frac{9}{11}, \frac{3}{4}$	
$\frac{11}{20}, \frac{5}{8}$	
$\frac{7}{12}, \frac{8}{15}$	
$\frac{18}{100}, \frac{1}{5}$
