

# On Time

You need  a classmate  a photocopy of clock faces

## Activity

Sonja the Spy has just received the instructions for her next day's mission. Unfortunately, Sonja's unbreakable, heat-detecting, safe-breaker watch shows the time in analogue form, and the instructions she has received are in digital time.

Help Sonja by drawing on the clock faces sheet what the time on her watch would look like at each stage of her mission. Compare your clock times with a classmate.
