

Scooting

ACTIVITY

Josh and Rewi are having a scooter race at the cycle track. The distance they are from the start is shown on the following graph:

- Who is winning at
 - time A on the graph?
 - time D on the graph?
- Who wins the race?
- What happens at time B?
- What happens to Josh between A and C?
- How did Rewi's speed change at time A?
- Sketch the graph above and then draw a line showing your progress in the race. Describe how well you went compared with Rewi and Josh.
