

Stretching It Out

You need ☒ a cardboard strip ☒ centimetre cubes

Activity

1. Use centimetre cubes to find out how long each object is. For example, the pencil shown below is 16 cubes long.
2. Mark up a cardboard strip in centimetres to make a ruler. Use this to check your answers.

a.

b.

d.

e.

f.

h.

3. Can you think of any other ways of measuring the lengths of these objects if you do not have a ruler or the centimetre cubes to help you?

g.
